Religious Education. It's more *RElevant* than you think

- What is the meaning of life?
- Why are we here?
- Is there a higher power?

Throughout the millennia of human experience, religion has expressed the deepest questions human beings can ask, and it holds a central place in the lives of all civilisations and cultures. Religious Studies at Byrchall aims to provide children with both a strong respect for faiths and cultures beyond Christianity and an understanding of the world around us.

Posing challenging questions, we aim to encourage students to reflect their own values and the values of others. In an increasingly material and technological world, that creates barriers between human interaction, we seek to connect young people spiritually, morally and culturally to the world around them.

We seek to engender a righteous sense of respect and tolerance for others, questioning assumptions, challenging casual prejudice and seeking answers to the questions that will confront them as citizens in modern Britain.
