1. Aims

This policy aims to set out our school's provision of impartial and informed careers guidance for our pupils. This includes the ways in which pupils, parents and carers, teachers and employers can access information about our careers programme.

High-quality careers guidance is important for our pupils' futures, and our provision aims to:

- Help pupils prepare for the workplace, by building self-development and career management skills
- Provide experience and a clear understanding of the working world
- Develop pupils' awareness of the variety of education, training and careers opportunities available to them
- Help pupils to understand routes to careers that they're interested in, and to make informed choices about their next step in education or training
- Take into account the individual needs of all pupils to tailor the programme accordingly and provide the right level of support
- Promote a culture of high aspirations and equality of opportunity

2. Statutory requirements

This policy is based on the statutory [Careers guidance and access for education and training providers](#) from the Department for Education (DfE).

This guidance refers to:

- [The Education Act 1997](#)
- [The Education and Skills Act 2008](#)
- [The School Information \(England\) Regulations 2008](#)

This policy is also in line with the [Skills and Post-16 Education Act 2022](#) (the 'provider access legislation'). It explains that our school must provide a minimum of **6 encounters** with technical education and apprenticeship providers to all pupils in years 8 to 13 about their education or training offer. For more detail on these encounters, see our provider access policy statement, which you can find on the school website in the Careers section.

This policy is also in line with the [Education \(Careers Guidance in Schools\) Act 2022](#), which amends the existing duty in The Education Act 1997, so that:

- Our school must now secure independent careers guidance for pupils from year 7 (instead of from year 8, previously)
- As an academy in England, we're now required to provide and publish careers guidance

The above guidance requires that we publish information about the careers programme on our website, and that it is communicated in a way that enables learners, parents and carers, staff, and employers to access and understand it. This includes:

- › The name and contact details of the careers leader
- › A summary of the careers programme
- › Details of how pupils, parents and carers, teachers, and employers can access information about the careers programme
- › How our school measures and assesses the programme's impact on learners
- › The date by which we will review information

We also act in line with our statutory duty under the provider access legislation (also known as the 'Baker Clause'), to be impartial and not show bias towards any route, be that academic or technical. This policy should be read in conjunction with our provider access policy statement, which sets out how our school meets this duty, and can be found on the school website.

This policy complies with our funding agreement and articles of association.

Our programme has been developed to meet the expectations outlined in the **Gatsby Benchmarks**:

Information, opportunities and support will be personalised and sequenced to meet the needs of each pupil with SEND and their families.

Our careers leader will work with teachers and, where appropriate, professionals from relevant organisations, to identify the needs of our pupils with SEND and put in place personalised support and transition plans. This may include meetings with pupils and their families to discuss education, training and employment opportunities, supported internships and transition plans into higher education.

Our careers leader may, as appropriate, invite adults with disabilities to visit and share their experience and advice.

No information will be given to pupils without SEND that is not also offered to our pupils with SEND.

SEND students will have opportunities for tailored college visits.

4.4 Access to pupil participation records

We measure the progress of pupils and keep records as they move through the Key Stages.

We collect, maintain and use accurate data for each pupil on their aspirations, intended and immediate education, and training or employment destinations, to inform personalised support. We also keep records for each pupil of their participation in the careers programme, the individual advice given to them and subsequent agreed decisions.

Pupils have access to these records to support them during transition points and in their career development.

These records will be kept in line with our data protection policy, which can be found on our school website.

4.5 Assessing the impact on pupils

Our careers programme is designed so pupils and parents/carers can give feedback throughout the course of the programme. We measure and assess the impact of the programme's initiatives by:

- Student feedback and surveys
- Tracking of student participation in careers activities
- Destination data (post-16 and post-18)
- Ofsted evaluation of careers provision
- Regular reporting to SLT and governors
- Termly review against Gatsby Benchmarks using Compass+

This evidence will feed into the overall development plans to make it easier to evaluate, improve and adapt our careers programme to ensure it meets the needs of all pupils.
